

# Epson EB-W10

## PRODUCT GUIDE

A combination of affordability, lightweight design and great functionality make this the ideal projector for any meeting room.

Keep the lights on so the audience can comfortably take notes, this projector series combines a high White and Colour Light Output (CLO) of 2,600 lumens with 3LCD technology for outstanding picture quality, natural colours and brightness.

See the bigger picture with a WXGA widescreen resolution which shows everything that's on your wide-screen PC without adjustments.

Ideal for even the smallest meeting room, users can project large images from a short distance, and easily align slides and correct distortion with automatic vertical keystone correction.

Set-up time is kept to a minimum with features such as quick-start and instant-off. Weighing in at only 2.3kgs, it is also light enough to carry between meeting rooms. The projector's exceptional value is complemented by the low-running costs of the E-TORL lamp, which lasts 5,000 hours.

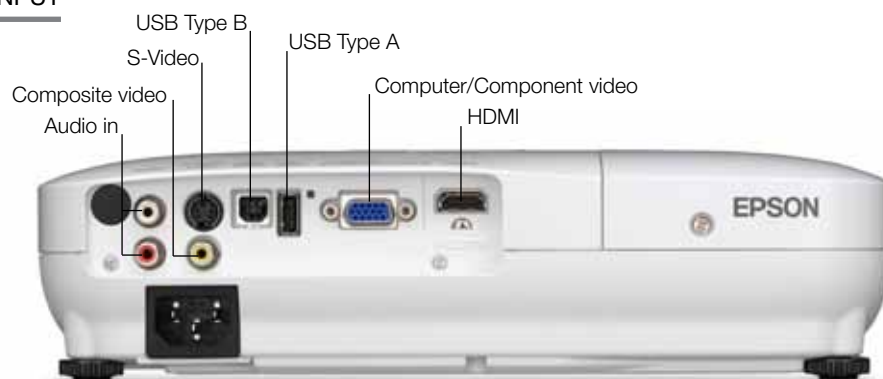

For ease of use, you can display images and control the mouse from a PC or Mac with a single USB cable. Alternatively, travel light and leave the PC behind altogether thanks to the USB flash memory support. You can also enjoy enhanced sound and image with HDMI input.

## KEY FEATURES

- WXGA resolution for a 30% bigger picture
- Image viewer from USB flash drive
- HDMI digital input
- Automatic vertical keystone correction
- 5,000 hours E-TORL long-life lamp

## INPUT

PRODUCT SPECIFICATIONS
